OSATT Program Network Alliance

A centralized resource for program administrators working on industry and foreign-sponsored projects across the Institute

- Resources for projects spanning multiple DLCs
- Networking
- Peer-to-peer mentoring
- Sharing best-practices and know-how
- Better faculty experience

Empowering administrators to efficiently and thoughtfully manage the strategic, operational, and logistic components of programs at MIT

Sample Session Topics

- Career development
- Best practices in calls for proposals and project selection
- Highlighted staff/programs
- Distribution of costs across multiple sponsored and/or gift projects
- Communication best practices

Who should join?

We welcome new members! Please consider joining if you:

- Manage industry-sponsored or international programs or consortia
- Are interested in networking with others in similar roles around MIT
